

# Aquaculture Technical Tours

"Discover the Art of Aquaculture in Setúbal's Serene Waters."

**Date: April 29, 2025**

**Time: 08 : 00 AM - 11 : 10 AM**

## Polytechnic University of Setúbal → Exporsado

### Exporsado

- **Premium Oyster Production:** Exploring Exporsado's operations in Portugal's Sado River Natural Reserve, where top-quality oysters are cultivated and exported to meet the demands of prestigious international markets.
- **Sustainable Aquaculture Practices:** Gaining insights into environmentally responsible oyster farming, ensuring fresh, high-quality oysters while preserving the natural ecosystem.
- **Supply Chain & Export Standards:** Understanding the logistics of delivering premium oysters fresh to distribution warehouses and the quality control measures required to meet global market expectations.

## Exporsado → Aquanostra (Oyster Production) → Aquanostra (Oyster Depuration)

AQUANOSTRÁ

### Aquanostra

- **Excellence in Oyster & Shellfish Production:** Discover how Aquanostra has become a national reference in oyster and shellfish farming, with a strong commitment to quality and innovation along the Portuguese coast.
- **From Hatchery to Global Markets:** Explore the journey of Flat Oysters (*Ostrea edulis*) and Japanese Oysters (*Crassostrea gigas*) from their maternity ward to nurseries and farms, ensuring exceptional seafood reaches both national and international markets.
- **Sustainable Aquaculture in Pristine Waters:** Learn about Aquanostra's farming operations, spanning from the Sado Estuary to the Algarve, and how they cultivate flavourful, fresh oysters while preserving the natural ecosystem.

## Aquanostra (Oyster Depuration) → Boa Agua(Fish farm)

### Exporsado

### Aquanostra

## Boa Agua(Fish farm) → Polytechnic University of Setubal

**Limited spots are available for the tours—reserve early as it's first come, first served!**
